

The Evolution of Pipe Inspection

Inuktun technology lets you... see it for yourself.

Able to operate in confined spaces within hazardous environments, submerged or on land, our modular Minitrac™ crawler units give you control and maneuverability in even the most inaccessible pipes and duct work. Available in brass, stainless steel or aluminum construction, our precision machined Minitrac™ units can be adapted to upgrade your existing inspection vehicle or built into a complete system tailored to the specific needs of your industry.
